Belgian Carrier Pigeons

Estancieros and others living on the frontiers or at a distance from telegraphic communication, are hereby advised, that Belgian Carrier Pigeons, of the best Liége breed, can be procured in Montevideo. Many trials with these birds have been made over long distances in the Banda Oriental, during the last three years, and also from Buenos Aires to Montevideo with the greatest success, thus proving their adaptability to these countries.
For all particulars apply to E. H. Stuart, Corredor Maritimo, Calle Zabala 40, Montevideo.

Pildoras Holloway

Las virtudes de esta admirable medicina son especialmente oficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Hígado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguento Holloway

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo origen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion tanto de sus Brazos y Piernas como de su existencia.
Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533, Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

Muy importante para el Publico.

Poseido de la mayor ansiedad, y con el debido respecto al Publico, apelo muy encarecidamente a toda clase de personas, para que se dignen prestarme su apoyo, dando a conocer como falsas las mañas y sus peligrosas falsificaciones de mis medicinas, hechas principalmente en Nueva York, de que tengan conocimiento.
Especuladores nada escrupulosos adquieren esta broza a un precio sumamente bajo, y la venden como si fuera mis genuinas pildoras y unguento, logrando con este reprobado trafico una enorme ganancia.
Ninguno de los expresados medicamentos son genuinos, si no llevan en el rotulo de caja bote y caja la inscripcion siguiente: Holloway's Pills and Ointment, 533, Oxford Street, London, y el sello del Gobierno Britanico, con las palabras Holloway's Pills and Ointment, grabadas en el.
Las personas que tengan la bondad de informar de algun traficante que venda las enunciadas medicinas falsas, seran muy bien remuneradas, y nunca, ni en circumstancia alguna, se publicaran sus nombres.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.
Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.
There is a special class under a competent master to prepare students for commerce al life, and no exertion is spared to secure the progress of the pupils in the junior classes.
The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.
TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, 30 guineas.
St. Mary's Preparatory School
In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.
Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.
The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.
The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.
TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, £30.

El Gobierno Nacional ha dictado la siguiente resolucion que interesa al comercio.

B. Aires, Marzo 2 de 1880

Teniendo en consideracion que la ley de Almacenage y Eslingage exonera del impuesto a las mercaderias que se reembarcasen antes de transcurridos seis meses de introducidas a los depositos de Aduana, visto lo manifestado por el recurrente sobre el gravamen que le ocasionan a la empresa del Muelle y Depositos del Norte la doble imposicion que resultaria de la disposicion de la ley precitada, a la vez que la que le impone el decreto de 29 de Diciembre de 1877, que manda liquidar a favor del erario la tercera parte del almacenage por los articulos depositados en almacenes particulares, habilitados por el Gobierno y de acuerdo con lo manifestado por la Contaduria General, Direccion General de Rentas y Procurador del Tesoro.

Se resuelve—Derogar el decreto precitado de 29 de Diciembre de 1877, quedando obligada la empresa a nombre de la cual se dirige el recurrente a cumplir lo dispuesto en el art. 6 de la ley de almacenage y eslingage.

Comuniquese a Contaduria, previniendose le que esta resolucion empezara a regir desde el 1° de Enero pdo. y pase a la Direccion General de Rentas a sus efectos, previa reposicion de sellos.

The question of the extradition of the man who attempted to blow up the Czar on the Moscow Railway has been decided by the French Court; he will not be surrendered in spite of the Russian Ambassador insisting. The decision is based less on the political nature of the crime than on the insufficiency of the proofs that the accused really took part in the attempt.

FRESH CAPITAL.

In a recent number of the *London Times* we find the following remarks about the FRESH CAPITAL going into New Zealand, which may possess increased interest for our readers, owing to the late argument in our columns on this vexed subject. Of course, all those who know little about this country will admit that what the River Plate most needs is fresh capital; but there never was a greater blunder, and perhaps one of the worst misfortunes that could befall us would be the negotiating in London of a new Argentine loan, or the opening in this market of a new bank with say one million sterling fresh capital. We have in the instance of New Zealand the injury caused to a new and young country by the too easy introduction of Foreign capital; and the following pertinent remarks of the *Times* show the astounding fact that last year New Zealand received from the London market over 7¼ millions stg. fresh capital.

The *Times* says:—

"The subjoined table will be interesting to those who invest in New Zealand securities. It shows that apart altogether from such occasional issues of capital as that of the New Zealand Agricultural Company, issues to a great extent nominal, there is a persistent absorption of money by local bodies in the colony to an extent far greater than the public suspects. Deducting the Agricultural Company's capital and the New Zealand Mortgage Company's capital, altogether, these small local bodies borrowed last year more than £700,000, and still they continue to come for loans. This propensity, when it is remembered that the whole population of the colony is less than 500,000, cannot be too jealously watched. The following is a tolerably complete list of the New Zealand loans and capital raised in 1879:—

	Capital
New Zealand Agricultural Company	£1,000,000
Borough of Napier Consolidated Six per cent Deben	60,000
City of Christchurch Six per Cent District Drainage Loan	100,000
Lyttelton Harbour Board Six per cent Debentures	200,000
Bluff Harbour Board Six per cent Debentures	50,000
City of Wellington Improvements Loan Six per cent Debentures	100,000
Church Property Trustees' Six per cent Debenture Loan	50,000
New Zealand Five per cent Government Loan	5,000,000
Australian and New Zealand Mortgage Company	500,000
New Plymouth Harbour Board Debentures	200,000
Total	7,260,000

The population of New Zealand at the end of 1878 barely amounted to 400,000 souls, exclusive of Indians; and if the pressure of the Public Debt on a community is to be estimated by the simple process of counting heads, then the future of New Zealand would indeed seem hopeless, but, of course, in considering such a question regard must be had to the wealth and resources of the population. We find, on looking up New Zealand matters, that in 1870 its public debt stood at 7½ millions sterling; it stands now at 22 millions sterling.

The following is a list of the Fresh Capital, by way of public loans, gone into New Zealand:—

Total	16,278,434
Act 1870 and 1873, issued 8th July, 1876	1,250,000

The annual interest and sinking fund which the N. Zealanders have to pay to their bondholders now amounts to £1,315,778 stg., which, as far as we can understand New Zealand finance, is made up partly by land sales and partly by fresh loans, since the ordinary revenue of New Zealand for year ending 30th June 1876 was only £1,703,215 stg.; and Mr Archibald Hamilton, in considering this question of raising, borrowing and forcing upon New Zealand fresh capital every year, remarks:—

"Nevertheless I have not concealed my opinion that the credit of the colony has been too freely drawn upon during the past five years, and I am aware that this opinion has prevailed in financial circles. It cannot, indeed, be denied that a feeling of uneasiness began to prevail, with the usual want of discrimination, following upon the difficulties of Turkish, Egyptian, Peruvian and other foreign debtors. Though from what has been set forth above, it will be seen that it has not been the resources of New Zealand which have been exceeded, but the disposition of investors at home to absorb the loans, the public not being aware how ample is the security afforded by the colony. Loan after loan has been brought out, and the market has been over supplied with New Zealand bonds. Before the capitalists who took up one loan had been able to place it with the investing public, another loan has followed, at a lower price, and prejudiced the previous operation. But all this has no bearing upon the soundness of the security; though I trust it may prove a timely warning to the Government of New Zealand that they must moderate their expenditure, even upon works of the greatest ultimate advantage to the colony, and not suffer their zeal for developing its resources to outrun their power of borrowing on fair terms in the London money market."

That a country may be overdone with too much money, as much as checked by too little, none can deny. Capital where industries keep pace is the life blood of a country, but the industries of the River Plate are not of that stamp to be increased by fresh capital. All the money from the Bank of England won't make your cows or your sheep breed faster. In the years 1872 and 1873 we had an experience never to be forgotten of the injury and ruin produced by a plethora of fresh capital in this market. There was no means of employing so much money, save in building quinta houses and buying up all the fields about the town at the most outlandish prices. Money was so plentiful, in Buenos Ayres that the bother was to know what to do with it. We all know the sequel, and we want no repetition. Capital is like food: we always need it, but sparingly. The present capital in the Plate is sufficient for its present industries; labour, and not capital, is what this country wants.

POSTAL GEOGRAPHICAL DICTIONARY.

Under date April, 1879, Mr. Postmaster Olivera advised the Minister of the Interior of the great need of a Geographical Dictionary, giving the names of the various towns and the countries to which they belonged. The Minister, aware of the impossibility of carrying in one's head all the postal towns of Europe, Asia, Africa and America, most properly acceded to the Postmaster-General's request, allowing one thousand dollars fuertes to meet the expense of printing and publishing the work. The Postmaster-General at once entrusted the work to Mr. Abraham R. Gonsalez, Secretary of the Post-office, and Mr. Henry Tassait, Chief of the Foreign Department of the Post-office.

The book is published in pamphlet form, well printed, and numbers close on 500 pages. It opens with the rules, laws and names of 'employees' of the Post-office, and gives a special chapter showing the postal service of the camp: we note that the mails to Bahia Blanca are carried 70 leagues on horseback. The next chapter informs us of the postal service of the Litoral and Upper Provinces. A glance at this chapter shows the immense area which a postage stamp covers, and the different means which in some parts have to be employed to deliver the mails: as a rule the horses of the Interior carry the bulk of the mails. Next follows a chapter on telegraphs, which tells us of all the lines and stations, showing a perfect world of its own in the telegraph line, and afterwards giving a copy of the telegraph law. Then begins the Postal Dictionary of towns in this Republic, beginning with Abipones, in Santiago del Estero, and ending with Zorros, a thriving town in Cordova.

Finished the Republic, follows a chapter giving the whole of the Postal Union, with charges, &c., and condescends to show us how to fold a letter, with an advice how to close it also.

Next follows a chapter showing how the different mails are despatched, the various telegraph lines, not Government, names of stations, charges, &c., and then we enter the great Geographical Dictionary, beginning with Aach, a smiling little village in Baden, and closing with an equally charming little postal village in Saybusch in Austria, called Zywiéc.

Whoever reads through this 'mare magnum' of post towns, will rise from the study with a head like a postage stamp. It is really bewildering, and we cannot conceive a more fatiguing labour than that which Sr. Gonzalez has brought to so successful a conclusion. We have looked for the names of little towns in Ireland whose people have never yet heard of Buenos Ayres and Argentina, and we have found them: Bray or Ballbriggan receive the same place in this work as London or Paris; and what is most surprising is the number of post towns bearing private names, such as Carroll, Leslie, Billinghurst, Baker, Barton, Baldwin, Hall, &c.

We commend to all this Geographical Postal Dictionary. It reflects the greatest credit on the authors and on the Government that contributed so liberally to teach the letter-writing public that Cork is not in Holland, or Quilmes in Belgium.

THE COMET.

With indescribable pleasure we correct our measurement of the Comet's tail. Instead of its being only 40 millions of miles, it now turns out it was 120 millions of miles; and, as appears by the following, which we take from the Rio papers, we had a narrow escape of the tail touching the earth an 20th last January, which was the hottest day in the whole year.

"Mr Liais, Director of the Brazilian Observatory, communicated on the 18th, to the *Jornal de Commercio*, as follows:—

"In regard to the great comet whose tail allowed itself to be seen in the southern hemisphere during some days, I have combined the two directions observed at Rio, on the 4th and 8th inst., with the information come to my knowledge in relation to the appearances observed at other places, so as to arrive at some indications of the nature of the orbit of this interesting star, and now I can give the elements of its orbit very nearly, as:

"Perihelion distance 0.05 to 0.10.

"Passage in perihelion February 11th.

"Inclination 80°.

"Longitude of the ascending node 120°.

"Longitude of the perihelion 85°.

"These elements give a complete explanation of its very rapid appearance and disappearance. On the 20th of January the nucleus of the comet must have been projected behind the sun, and during all the previous part of the month it was very close to the sun and almost in the ecliptic, with the direction of the tail sensibly in that of the visual ray and therefore invisible. Under these circumstances the comet could not be seen in any part of the world unless during a total eclipse, which was what did occur in California on the 11th of January. Indeed, upon that day several American astronomers saw a body distinct from the fixed stars and planets, and, in lack of other explanation, supposed it might be the planet Vulcan. This is one more illusion in regard to the disastrous supposition of the existence of such an intra-mercurial planet, and I have sent to the *Times* of London the following telegram in rectification of that received from California.

"'The great comet visible here corresponds in its orbit with the apparition taken for a planet in California during the late total eclipse of the sun.'

"I add that on the 8th the length of the tail of the comet, deduced from the apparent angle and from the position of the nucleus in the orbit, could not have been less than 40 millions of leagues, as it exceeded the distance of the earth from the sun; and if the comet had been 20 days more advanced in its orbit the extremity of its tail would have met the earth on 20th of January."

LATEST FROM PARIS.

(*From our own Correspondent.*)

For the first time in her parliamentary history, France is constitutionally engaged in the battle of free-trade, versus, not compensation or reciprocity but protection. The Cobden treaty of 1860 was carried out in a hole and corner style, but the results have been so excellent in augmenting the material prosperity of the country, that one is almost tempted to admit the end justified the means. Perhaps not more than one-fourth of the nation has any clear conception of the issue at stake, and this fraction perhaps is not a little bewildered at the sophistication of figures and the bamboozling of facts by those interested in keeping up the prices of cotton, iron and coal, in putting next to a prohibitory tax on these commodities when consigned to the foreigner. The agricultural interest is divided; the wheat-growing and cattle-raising cultivators would like to exclude external grain and meat, while the vineyard proprietors, a formidable body, united to the brandy manufacturers, demand free-trade, like the silk fabricants of Lyons and St. Etienne, to secure admission to the emporia of the world. Not that they are pleased with the quantities, yearly increasing, of vines imported from Italy and Spain—for even Frenchmen commence to have a weakness for a full-bodied wine. If California sends brandy to Cognac, claret to Bordeaux burgundy, to, Macon, and champagne, to Rheims, why the wine and alcoholic party, seeing the temple in danger, may fuse with the friends of home grain and beet.

It is to the credit of Mr. Tirard, the Minister of Agriculture and Commerce, to have placed the question of international trade on the national, not the parochial basis where it had rested from Thiers up to M. Meline. He reminded the Chamber, that if France desired admission into the markets of other nations she must be prepared to allow others to enter her own. England of course is the great bone of contention; but she imports double the value of French produce that France takes from her, and if spinners, iron-masters &c, do not reap the advantage of such a customer, other classes which form the nation, do. Mining and factory interests have suffered in France as elsewhere, from a succession of bad seasons and the commotions of politics and wars; but they are now reviving, as is evidenced from the enormous rise in shares; and proprietors present the strange spectacle of becoming, from fall to fall, millionaires.

The republican journals are commencing to swing round to the doctrine of commercial liberty; but the consumer, whom the matter effects most vitally, feels like in a fog. On the principle, perhaps, that everything is fair in war, some organs remind the masses that the protectionists comprise the large landed proprietors and great manufacturers, who are clerical and monarchical, and who want the poor to pay five francs for what they now obtain with four. 'Cotton and iron are Catholic, Conservative and Protectionist, while the vine is radical, materialist and free-trader.' It will be a close fight to maintain the present tariffs; if there is no retrogression, no advance is to be anticipated.

The economic labors of Colbert were cut short by the revocation of the Edict of Nantes, and the dragonnades compelled some of the most beautiful industries of France to seek a refuge in England, Holland, and Russia. Strangely enough, the establishment of the Republic was hardly proclaimed in France when it played a role exactly the reverse; it served as a shelter for those citizens chased from their country by political persecution. It is thus that in 1793, some workmen compelled to fly the Swiss cantons for their opinions, settled in Besancon, and founded the present flourishing and famous watch and clock trade, but it is only since 1842 that the trade assumed its definite importance. In 1846 that city manufactured 54,000 watches, of which the proportion rests invariably, of one gold for two silver; in 1876, the number was 456,000, and although watch-making is a trade proverbial for being unaffected by events, it experienced the evil effect of the Broglie ministry of 16 May. Nearly all the watches sold in France come from Besancon: Switzerland sends 60,000 annually, one-third being gold, but this number is decreasing, as France not only exports largely to Switzerland, but manufactures the works to be placed inside Geneva cases, the Geneva hall-mark being still in demand. The works exported to Switzerland represented one million francs in 1874, being an increase of 400 per cent in ten years; nay, more—she makes the cases, and sends them over the border to obtain the Swiss stamp, just as English paper-makers forwarded their products into France, to be impressed with the catching evidence of foreign manufacture. There is no employment in which division of labor has been so much carried out as in watch-making; wheels in the recess of a watch can be pointed out which have passed through no less than one hundred hands, and a silver watch keeping fair time and that can be purchased for 18 francs, has exacted no less a total than 200 workmen for its production. Indeed the industry at Besancon demands from three to four hundred distinct branches, and in the mountainous districts of the Doubs, the peasantry devote the winter season to prepare many of the works in the rough, which they later sell to the 191 fabricants in Besancon; the peasantry thus earn from 2 to 3 francs per day. The total annual value of the watches turned out at Besancon is 25 million francs, representing an average price of 50 francs per watch; there are 6,000 artizans, who mostly work in their own houses, or in associated goups of five. Men can earn as much as 10 and women 3 francs per day. American machine made watches have told in Europe; neither Switzerland nor France can now find a market in the United States, and American works are being at present fitted into French and Swiss stamped cases, thus bringing competition to the very centre of home. In presence of this state of things, machinery is rapidly superseding hand-made watches at Besancon, and companies are being organised to found factories in America to keep the market still in French and Swiss hands.

LATEST FROM BRAZIL

Rio Janeyro, Feb, 28th.

Since the fire at the Praia de Santa Luizia demonstrated the insufficiency of the fire corps personal and material to deal with a grave and prolonged conflagration, the Minister of Agriculture has authorized the purchase of a Merryweather steam fire-engine, and a credit of £700 has been opened therefore in the London Treasury agency.

The President of Rio de Janeyro has given provisional approval to bye-laws to enforce the closing of shops etc. on Sunday and holidays. In Rio on the other hand, after ten days' trial, the Municipal Chamber petitioned the Minister of the Empire to permit it to revoke the door-closing bye-law, the ostensible pretext being the sanitary disadvantage of keeping closed the only openings by which air from the street could enter.

The Botafogo Tramway Company paid into the Treasury 9:483$, for the January passenger tax paid by 774,103 passengers.

Conselheiro Sodrè, Minister of the Empire, having recovered from the severe illness which prostrated him some weeks ago, came down from Petropolis on the 20th to reassume the functions of his department, which were exercised, during his impediment, by Conselheiro Affonso Celso, Minister of Finance.

His Majesty the Emperor has given 400$ to the sufferers by the inundations of the Po, and contributed previously liberally to the Murcia sufferers. He has also sent 600$ to the French Beneficent Society of Rio, to assist the erection of its Asylum.

Owing to the torrential rains which fell on the 16th and 17th great damage was done to the Santos and Jundiahy railway. The chief damage was to the first incline in the Cubatao, where the earth-falls.

The *Cruzerio* treating on the 20th of the anniversary of the last battle of Ituzaingo fought in 1827, in the territory of Uruguay, when the Brazilian army of 5,600 men, under the Marquis of Barbacena was surprised by an army of 10,500 men, four-fifths cavalry, commanded by the Argentine general Alvear, defends the Brazilian general from the charge of incapacity often alledged against him, and shows by the report of the Argentine general, that the infantry of the Brazilian army had fought with great gallantry and, favoured by the broken ground,

effected its retreat in good order, and the Marquis de Barbacena had shown great skill in the direction of his forces. In the battle the Brazilians lost one cannon and 242 killed and prisoners, exclusive of a large number of missing many of whom, however were collected. Two flags lost, but the Marquis's report says that they were two that had been packed away in the baggage and were not in the battle.

The tenders sent in for the construction of the Santos wharves were three, one made by D. M. Fox and a leading Rio firm, another by Visconde de Figueiredo and the third by Benito Antonio da Silva and others. They were sent on the 6th to the Ministry of Finance, for a report on the tariffs proposed in them to be levied on vessels and goods.

The body of the Baroneza do Catete (Marqueza de Abrantes) arrived here from Paris on the 17th, and was taken to the chapel in Rua de Abrantes. The burial took place the next day.

Chefe de Divisao Joao Carlos Tavares died in Rio on the 17th. He was Officer of the Rose and Knight of the Cruzeiro and Aviz, besides having the medal of the passing of Tonelero.

EDITOR'S TABLE.

The event of Sunday was the rain. It came down mildly about 2 o'clock and knocked the Flower Show on the head, while disturbing the equanimity of the patriots engaged in proclaiming Dr. Irigoyen, at least those of them who could not get inside the theatre, as it was packed full. At about 5 o'clock Jupiter Pluvius himself rushed up from the S.W. and for an hour or so gave a very fair second edition of the Deluge, the suburban roads assuming for a short time the appearance of shallow rivers. After another burst at 9 o'clock, the weather cleared up. Yesterday was a delightful day.

The great commercial event of today in the city is the annual auction of Wines from the famed vaults of the well-known importers, Messrs. Day, Peake and Co., Calle Cangallo, Messrs. Gowland wielding the hammer, at their premises, No. 202 Calle Victoria. At the last auction of this firm's superior brands half the families in town supplied themselves at prices and with an article not met with every day in the week; and a spirited competition may be expected to-day, when 1000 cases of the finest wines the firm has ever imported will be offered for sale. Those who know anything of the European wine markets have only to look at Messrs. D. and P.'s list of correspondents to at once have a guarantee that there are none but the very best brands in their cellars. Their Grand Annual Wine sale is now an institution in this market.

Dr. Irigoyen's proclamation at the Variedades Theatre on Sunday was a decided success and has still further raised the hopes of his party. Many of the first men in the city were there. Mr. Saenz Peña's speech was an eloquent testimony to the programme he represents—moderate liberal and conciliatory. The fervent eloquence of Drs. Alem and Solveyra also greatly impressed the meeting. As usual at all public meetings in these countries, there was too much noise and cheering, the speakers being interrupted almost at every phrase by senseless 'vivas' and other cries. After the meeting most of those present marched to Dr. Irigoyen's house to congratulate him, and he came to the hall-door and thanked them in a flowing and elegant speech, which evoked great cheering. There was a hair's-breadth escape of a row, promoted by some parties passing by, whose political hat was of another colour, but, happily, matters did not go beyond cries and counter-cries.

The rain on Sunday night put a stop to all the amusements in town. The distribution of prizes at the Flower Show, concert &c. were postponed till 8 o'clock yesterday evening.

We are requested by the manager of the coming performance in aid of the Irish Relief Fund to thank several parties who have so kindly given gratuitous aid in this truly charitable undertaking. They are—Mr. John Kidd, for printing work; editors of newspapers, for inserting advertisements; Mr. McCallum, of the firm of Watson and McCallum, for furnishing a great quantity of satin and lace for special programmes, and on which the fair hands of half the ladies in town are now busily employed; Mr. Stetson, for a stamp, and who has offered, in conjunction with others, to decorate the theatre; Messrs. Mackern and Dewey, for fancy paper for other programmes; and last, but not least, the ladies who, having so graciously consented to take part in the performance, will assume the names of some of the greatest Irish actresses, out of compliment to the people in whose cause they will lend their valuable services. From to-morrow (Wednesday, 10th inst.) tickets will be on sale at Mackern Bros., Calle San Martin.

The latest news about the Ten Cents War is from Montevideo, the papers of which city insist that the United States Government has at last decided to offer its friendly mediation in the quarrel. Will it be accepted?

There was a notable falling-off at the usual Tiro and Bombero business at Palermo on Sunday. The weather, of course, was the cause.

An Artists' Club is spoken of. Painters, poets, sculptors, musicians and editors are alone to have the privilege of joining this Parnassus. We should not know what to do with ourselves in such ethereal society. A good song from Stagno or Tamagno, after dinner or before supper, would be all very well, but we'd be afraid of the poets, who, as a rule, make wretched club men.

The French Hospital Committee are organising a charitable fair, which will be an exact model of the famous Saint Cloud Fair near Paris. A most happy thought, and certain to be successful in such good hands.

Mr Fabian Gomez gave a farewell banquet on board his yacht, the Enriqueta, last week at Montevideo, to the Spanish Minister and other distinguished guests. We hear that the 'menu' was a marvel, enough to knock all the feathers out of the gastronomical cap of the Aguila, and put out the Lucullusian lights of the Confiteria del Gas.

Mr Nicholas Calvo is now daily expected from Europe, and his friends are preparing a cordial welcome for him.

Mr Moreno, the Patagonian explorer who had lately such a narrow escape of being ripped open by his Indian acquaintances, will be here from Patagonia on Thursday morning next. A Committee has been named to receive him on the Mole head and invite him to a grand banquet, to celebrate his daring escape from the savages. It would have been a most serious loss to Argentine Science had the Indians succeeded in having the heart of this rising savant for lunch, as they intended.

There was another Tiro, or Bombero, or Riflero banquet on Sunday, given by the 'Ituzaingos' to Colonel Garmendia. Governor Tejeder and Colonel Arias both pleaded 'a previous engagement' and were not present, but the feast was a jolly one all the same.

We hear that there has been heavy rain in the South, as far as Tandil. The camps are coming round rapidly, as there are but few cattle on them, the herds having been driven farther out during the recent drought.

The river Parana is now three feet over its ordinary level, and still rising.

We heard yesterday with poignant regret that there is an enormous rise in the price of printing paper in Europe. If we could only raise our terms for subscription enormously also, we would not complain.

We perceive that some of our colleagues are talking of National Intervention in Cordoba. What has become of the Rioja Intervention which produced a Rump Parliament in that delightful province?

One of the Beneficencia Societies of the city intends to introduce Archery competition for ladies, on the English model, at its next bazaar. We applaud the idea with both hands. The lovely and graceful Porteñas will look lovelier still in Robin Hood attire; but we warn them that drawing the bow (long or short) requires practice beforehand, in order to shine in public; otherwise they will run the risk of putting out a spectator's eye, and in England, according to the 'lex non scripta,' when a spinster puts out a man's eye she is bound to marry him, and we suppose it is the same here; so, in case of accidents, let fair competitors make sure that they knock out the right man's eye, otherwise disagreeable consequences might ensue.

The *Pueblo Argentino* complains that its hall-door was smashed open the other night. This must be malice, as none but a burglar novice would expect to find any money in an editor's office. 'Tis true some of our colleagues can afford to indulge in a gold pen now and then, but this is sinful extravagance, and a direct temptation to robbers.

Two remarkable Lottery events occurred on Saturday. A *Standard* reader who resides in Calle Cangallo pulled off the 10,000 pats prize in the Uruguay Lottery, and Mr Perez of the Municipality did ditto in the Montevidean: but, like St. Kevin, the latter gentleman little knew what Dame Fortune's wily sex can do in the way of a trick: While Mr Perez was rushing breathless, with his hat on the wrong way, to the lottery agency to get his money, he lost the ticket, and all efforts to find it have proved fruitless. Well, I never! Did you ever? No.

We much regret to read in the Rio papers that the most illustrious and popular statesman in Brazil, Viscount Rio Branco, is in very delicate health, owing to a cancer in the lower lip, for which he had lately to undergo a most trying operation. This distinguished Brazilian nobleman has many friends and admirers in this country who will heartily join us in wishing for his speedy and complete restoration to health.

Our esteemed colleagues the *Patria* and the *Operario Italiano* published in their issue of Sunday last very energetic articles on the break up of the San Xavier Colony, which they attribute mainly to bad management, condemning vigorously the system of official interference in the management of agricultural settlements. The *Operario* says it knows managers of colonies up the country who never saw a plough in their life till they obtained their present appointment; it also says that there are other colonies that will share the fate of the San Xavier, and this in spite of the fact that it has cost the State 20,000 francs per family to keep them up for the last two years. This is an unpleasant state of things; but it is almost impossible for the zealous head of the Immigration Department to get the competent men he wishes and requires to manage Government colonies and the only remedy is to get such men, or abandon all Government interference with the colonists once they are started, which is also a difficulty, seeing that such colonists owe everything to Government.

A tram car went bang into a hole in Calle Venezuela the other day, the opening being caused through the extraction of a root which was forcing up the pavement in its growth. The effect was terrible, the most serious part of it being that half-a-dozen very pretty girls at the top of the car were flung into the laps of as many not bad-looking gentlemen; and the blushing, and giggling, and laughing that ensued was so embarrassing that the girls left the car in a body, greatly to the regret of the gentlemen, who were in secret hopes that another tree root might turn up before the car reached the Caridad station.

The week has opened with a rather quiet gold market, and prices ruled 15 cents higher than they closed on Saturday; nevertheless the opinion in the market is that the rise for the present has touched its highest, and the heavy speculators were to-day selling freely for end of month. Gold opened at 30.35 and closed at 30.40. Except for the end of the month there was very little done.

Treasury Bills opened at 78 and closed at 77½, and Nat. Bank Shares began at 57 and closed at 56½. Cedulas firm, at 83¾.

The agent of the Italian line of steamers received a telegram to-day announcing that the steamer L'Italia sailed from St. Vincent on 7th direct for the Plate.

The mole head was crowded to-day with friends accompanying Mr Cadmus and Messrs. Christophersen to the stairs. They all looked well and happy and promised to return to the Plate next September with fresh orders, views and experiences.

The most important news on 'Change was that from Rio Janeiro, announcing a Cabinet crisis there, and all the Ministers resigned. The import of this news is the return to power of Viscount Rio Branco, which will be well received by all.

As a matter of course there was great talk on 'Change to-day about the affair of yesterday; it is said that the great split between the Chamber and the Governor is arranged since the proclamation of Dr Irigoyen as candidate and that Governor Tejedor will give his fullest support to Don Bernard Irigoyen, which of course means very much.

Exchange very little done to-day, owing to the clearance of Pampa and Congo. Some bills passed at 49½, and 5.26 on Paris. Not much passed.

The gold sales were:—

The clearance of the French mail steamer Congo was the day's business; she took a full cargo besides many passengers; Dr Plaza, Minister of Hacienda, remitted by the mail one million of francs.

It appears that the National Bank has accepted none of the bids sent in for coining, and will probably now do nothing further in the matter, as M Castillo has purchased the plant for the new mint and is shipping it, so that we may expect it in May; the new mint building is all but finished.

Nearly all the grapes in San Jose de Flores have been bought up by a claret maker of that locality; the general price paid was 20 m/c per arr.

The shareholders of the Transandine Telegraph Co. are anxious to know when Messrs Maderna and Co. will pay the dividend, as it is said on 'Change that the funds arrived over a week ago from the West Coast.

There is a great inquiry to know the name of the clerk who fled to Europe in the Umberto 1st, taking with him $200,000 m/c. Police in Genoa are notified, and if he does stop at some intermediate port, it is probable that he will be arrested and sent back.

Notwithstanding the great business done in the Bolsa on last Saturday, and the crushing crowd to collect and pay, the efficacy of the new rule closing the Bolsa earlier was very apparent; and when on other Saturdays of less business the hall was crowded at 6 o'clock, on last Saturday there was not a soul to be seen about a quarter past five; and we are happy to say the attempted protest against shutting the Bolsa at 4 o'clock has amounted to nothing, owing to the good judgment of the very parties who had first attempted to get it up, and each day the convenience of the new rule is becoming more apparent.

The Frigorified steamer Paraguay arrived in Havre on the 20th of last January with 8,000 frozen sheep on board, as fresh and as good as the day they were killed in San Nicolas. The voyage was only 30 days, which was much shorter than the previous voyage in 1878; and the frigorified process which ruled at 3° below zero dropped to 2° which shows the excellence of the arrangements. This voyage of the Paraguay once and for ever settles the scientific question, and shops and deposits are now being erected in Paris and in Havre, where the meat will be thawed and sold; the business having given the greatest possible satisfaction to all those engaged in it, and the whole French press welcomes the industry that brings to the French people River Plate mutton at such cheap prices. Ten millions of francs are to be invested in five frigorified French steamers, and twelve millions of francs are to be put in the plant in this country and in France; each steamer will make 3 trips in the year, and the Company calculates upon carrying to France 300,000 sheep per annum, which no doubt in Havre the people think is a great number, but they are perhaps unaware that in the graseria season, before tallow had gone to the D———l, the killing every winter averaged 6,000,000 of sheep, and we never felt it. We congratulate Messrs Rostan & Co. of this market on their great success in this magnificent enterprize, a success which this leading French firm well merited, having spared no exertion to overcome the grave difficulties that surrounded the business at the outset; and sheepfarmers and estancieros will welcome this triumph of science which gives to them, instead of the miserable grasserias in the camp, the 'abbatoirs' of Paris for a market for River Plate mutton.

The following arrivals at Paysandu are reported—
Ita. barque Itala, with salt for the saladero Mocoreta, to B Quijano and Co.
German brig Underia, to load hides at the saladero Concordia, to B Quijano and Co.
Italian barque Diana, to load tallow at the saladero Casa Blanca, to B Quijano and Co.
Spanish brig Laureano, to load beef at the saladero Nuevo Paysandu, to B Quijano & Co.

The German steamer Argentina, which has arrived from Hamburg, was detained 5 days in her voyage by the ice in the Elbe; and the ice this year in Europe has cost the shippers in the River Plate more money than is generally supposed.

Mr Philip H Iglesias has proposed to the Argentine Government to establish a steam line between Sta. Cruz, the capital of Teneriffe, and Buenos Aires, and offers to put on the steamer Adela, (the Government to pay a subvention of 19,000 pats per annum), and to carry the mails free, and passengers and cargo at a reduced rate. It is not probable that this business will amount to anything, inasmuch as the Allan line, the Chargeurs Reunis line, and the German line, all make their steamers call at Santa Cruz; there is no doubt, a very important passenger trade between the Canary Islands and the River Plate, which is susceptible of great development, the Canary immigration to Venezuela and the Spanish main having proved most delusive, whilst in every port of the River Plate prosperous and independent Canary immigrants are to be met with. Santa Cruz is one of the most ancient cities we ever visited. The streets are narrower than the narrowest streets of Rio, and the people, living as they do under the eternal shadow of the Peak of Teneriffe, have a peaky appearance, but they are all good farmers and good wine makers, and any move that will increase the emigration of Canaries to the River Plate merits the best support.

On Saturday, the Public Credit Office in Montevideo received bids for the purchase of 5,000 pats in gold. The price ruled from 350 to 352, which always gives a quotation for the paper money down there.

The latest advices from Paraguay announce a short yerba crop; there was a time when this news would greatly affect this market; but the Paraguayan yerba trade is now so small that it is unimportant.

The English bark G S Berry, with a cargo of pine from Pensacola, has arrived.

The Allan steamer Phœnician took from Montevideo the following cargo:—
2,700 salted hides
242 bales wool
47,000 horns
4 cases feathers

The French barque Active has cleared for the Antilles with 62 mules.

The French war steamer Quicheu, Captain Gironde, 3 guns, has arrived in Montevideo from Dakar; she has brought 25 passengers, and has a crew of 95 men.

Messrs Ballar & Quesada will sell this month the beautiful quinta of Dr Pardo at Caballito, one of the finest properties about this town. The grounds are splendidly laid out, planted with the choicest trees, and the house which is most commodious, is exactly in front of the Caballito Railway Station, and is a most desirable property for a city merchant who seeks a convenient and commodious suburban residence.

It Mixes Freely with Cold Water, without Preparation.

It is a Domestic Disinfectant.

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I haveat your request made a careful examination of he sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 80 per cent. it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,

JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodnent Hall. Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Dr. J. COLLIS BROWNE'S

(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
